

Security & Compliance Datasheet

Security & Compliance Datasheet

Security by Design

Security is engineered into every layer of the GDEP platform, from edge sensors to operational and executive dashboards.

Security Pillars

Cybersecurity

Zero-trust architecture, continuous monitoring, and threat intelligence across GDEP platforms.

CNDP and Privacy

GDEP aligns its personal-data practices with Moroccan Law 09-08 and CNDP requirements.

Infrastructure

Cloud-native infrastructure with encrypted storage and secure networking.

Business Continuity

Disaster recovery planning supports a recovery time objective under four hours and a recovery point objective under fifteen minutes.

Compliance Controls

ISO 27001-aligned controls, audit logs, and role-based access control support accountable operations.

Data Protection

Data is protected through encryption at rest and in transit, with customer-owned data sovereignty as a core principle.

Privacy Commitment

GDEP collects personal data only when voluntarily provided, uses it for the stated service purpose, does not sell it for marketing, and retains it only as long as necessary. Individuals may request access, correction, or objection to processing in accordance with applicable law.
